

EL ADVOCACY INSTITUTE 2021

Building A New Generation of EL Leadership in California

Are you a passionate PreK-12/University educator or supporter of quality education for English learner students? Are you looking to learn new skills to advocate for the best education for all English Learners (ELs), and inspired to learn about the legacy of EL advocacy in California. Then ELLLI was made for you!

Californians Together, in collaboration with CAFE, invites you to apply to be part of an extraordinary, **four-day professional development event.**

Applications will be competitive, as we have the capacity to select only 60 participants for this **fully-funded** event (materials, meals, lodging, and transportation included).

The institute will be based on design and materials developed for the English Learner Leadership and Legacy Initiative (ELLLI). ELLLI aims to equip a new generation of EL education leaders with a historical perspective and practical skills to further advocacy and action work at the local, regional and state levels on behalf of ELs and their families. The institute features some of the state's top EL authorities and leaders in the movement toward educational access and equity for English learners in California.

November 11 - 14, 2021

Participants must commit to attending all four days.

**Application window opens
May 2021**
